7. Appoint board member to fill the secretary position.
8. Discussion per the following: Future need for a planning commission due to changes at county zoning. The reasoning for this is that over the last couple of months more instances of permits being issued in our town without any knowledge or input allowed or asked of the town by Bayfield County Zoning. These are permits that in the past needed the planning commission and town board approval. Why have a planning commission if we have no control of what is being built in our own town. The question has also arose as to whether the town should start doing it's own zoning to gain back control of our town.
9. Review Town of Namakagon Emergency Management Plan for submission to the Town Board
10. Public Comment
11. Set date and time of meeting for July.
12. Adjourn
