

## Report to Towns

11/9/2023

- The Director Search...continues to continue! The position was re-posted and priority apply by date was 11/10/2023. The Search Committee will meet next week to review the applications received and determine which candidates they will interview. Interviews are planned for the first week in December. Director Lendved does plan to stay on until a suitable replacement is found. We'll keep you posted!
- We were pleased to offer MAKESPACE: SmartMoves on 11/2. Developed through the local organization SMART, (See My Art) by Sarah Boles, this rhythmic and adaptive movement program is designed for people of all ages who may have mobility issues. The library sponsored this "intro" class. Sarah is hoping to offer this class on a regular basis on Thursday mornings at 10 at the Cable Community Centre. While there is no fee, she will accept a free will donation. All are welcome. If anyone has a caregiver, they are also welcome. If anyone uses a mobility device, they should bring that, as well. For more information...call Sarah Boles!
- I think I have explained previously that the library offers patrons access to a streaming service! All you need is a library card! The way patrons use the service, Kanopy, has changed a bit, and you can learn all about it on our website: <https://forestlodgelibrary.org/2023/11/01/changes-to-kanopy-november-2023/>
- While you're visiting our website, take time to check out other digital resources that are available to library cardholders! There's Transparent Languages, a language learning system, CreativeBug, which is full of instruction on crafts many and various, and, even, access to the New York Times!
