

Report to Towns
12/12/2023

- Although there is no specific information to offer as of this writing, the Search Committee is meeting this day, 12/12, to discuss the five Director candidates interviewed last week and make a determination regarding who the position should be offered to. So, there will be more news very soon. But, currently no end date to report for Director Lendved.
- Director Lendved is reluctant to schedule programming events that she may not be around to execute, so, not a whole lot to report regarding “happenings” at the library! Director is trying to tie up the inevitable loose ends, working out old past dues/credit memos on statements and so forth. Another thing we recently accomplished was to upgrade the most popular items in our travel guide section. Thanks to a Mead Witter grant back in 2015 we had amassed an impressive array of travel guides for not just the nation, but, the world. Staff input helped to identify which were the most used and we’ve upgraded those to something printed after 2020. While trails and monuments don’t change...hotel and restaurant recommendations might well. Many of these have already flown out the door, so, no, everyone is NOT getting all their travel info online!
- We thank our Towns for their support of the Forest Lodge Library and wish everyone a peaceful and delicious holiday season!
- If/when there’s news of a new Director hire, we’ll send along a special news bulletin!
