- Rich J. from CNHM was over recently (4/2) with electricians to get our light bulbs changed over from fluorescent to LED. Now, not only do we have all bulbs working, but they are all (with the exception of one small bulb that is in the hallway of the basement – rarely used) switched over to LEDs. I also spoke with Rich at that time about our heater (outside component) recently making loud noises – we agreed to try to make sure snow cover gets removed when necessary and to keep an ear on it.
- Facebook and website changes and upkeep continue to happen and stats show that we continue to get a good number of visitors to both of those online resources.
- Planning continues to be in the works for summer – we are planning a summer reading kick off which will include having Golden Girl Getty (therapy dog) and possibly/hopefully Smokey the Bear and a ranger to visit. It will be in conjunction with the opening of the book house for summer book sales.
